2015 Plans That Will Be Discontinued	<i>Answers:</i>
Is the issuer planning to terminate any 2015 plans? If yes, complete the table below.	
If yes:	
a. Will any policyholders be impacted by the termination of these plans?	
i. If so, how do you plan to handle those policyholders? (explain in Insurer Notes below)	
b. Have the appropriate documents been filed with the SC Department of Insurance to terminate these plans? (Note: A separate SERFF filing is required for product discontinuations. For more information, email lahmail@doi.sc.gov.)	
c. Please confirm you will comply with State and Federal requirements for the discontinuation of these plans/products.	

Summary of 2015 Plans That Will Be Discontinued					
HIOS ID Number	Plan Marketing Name	On/Both or Off	Metal Level	Counties Served	# PHs impacted

(add additional lines, as needed)

New Plans for 2016					
Provide list of plans that are new for 2016.					
HIOS ID Number	Plan Marketing Name	On/Both or Off	Metal Level	Counties Served	If SADP, will it be actively marketed outside of the Exchange?

(add additional lines, as needed)

General Notes:

IMPORTANT NOTE - ALL PLANS COUNTS SHOULD BE AT THE STANDARD COMPONENT LEVEL. This document is intended to summarize the number of standard plans the company offers in 2015 as compared to the proposed pool of standard plans that the company is seeking to offer in 2016. It should include the number of HIOS Plan IDs at the standard component level, without consideration of cost-sharing reduction plan variations and, as such, should not include the number of variants (i.e., the -00 through -06 suffix) of any standard plan. The number entered should match the number of plans on the Plans and Benefits Template.

- * Column 1 2015 Approved Plans - provide totals using the standard component plan only.
- Column 2 2016 Proposed Plans - provide totals using the standard component plan only.
- Item 2 This information is intended to capture information regarding what consumers should expect to see in the marketplace. As such, SADP issuers should break down SADPs to reflect whether they intend to actively market the plan outside of the FFM/ FF-SHOP. The total number of plans under Item 2 should match the total in Item 1. **DO NOT DOUBLE COUNT BY REFLECTING PLANS IN MULTIPLE FIELDS.**
- Totals for Items 2-4 If the totals do not equal the total listed under Item 1, the cell is conditionally formatted to turn red to warn you of an error.
- Item 5a Max number of counties in a Service Area - for example, if all Service Areas have 5 counties, enter 5. If one has 8 counties and others have 5, enter 8.
- Item 5b Add up number of counties served across all Service Areas and enter here (for example 5 Service Areas with 5 counties each that don't overlap = 25).

Insurer Notes:

Submit in Excel format in SERFF filing under Supporting Documents.
