Notes on Binder Items:

Issuers bypassing a submission requirement must note the reason for the bypass in the comments field in order to avoid additional objections.

Issuers should take note of the Plan Management general instructions and the instructions listed under each item in the Supporting Documents Tab when preparing their submissions.

Once binder is submitted, a Note to Reviewer should be submitted in the corresponding Form/Rate filing with SERFF Binder Number and date submitted. If validation is not completed by target date listed, carrier should advise DOI when validation will be completed and

Additional items may be required in response to state and/or federal reviews. This includes, for example, the Discrimination - Cost Sharing Outlier Supporting Documentation and Justification.

See additional instructions on following page.

General Notes:

- If an issuer is utilizing any previously approved forms, the SCDOI asks that the issuer upload copies of the final versions of the forms (as previously approved) to the Supporting Documents tab. This will serve to speed up the review process.
In advance of any filing, the company should review their last Form/Rate filing(s) and address any objections/ requests for additional information in said filings as a part of their submission. Note: this does not mean that you should simply attach copies of prior objection responses; you should incorporate the information/ support requested previously in the appropriate document(s) in order to reduce the number of objections and, thus, expedite the review process.
- Please refrain from labeling/item naming items as "final" and from re-submitting items that do no change in response to objections, etc.
- We encourage carriers to utilize a naming convention such as "Item Date v1" so, for example, "AV Screenshots 06.04.2016 v1" to reduce confusion and speed up the review process.
- When replacing a previously-submitted document/ file, issuers should grey out the prior version and replace it with the most updated version in the same location as the prior document. This is the standard process for items under the Forms tab and Rate/Rule tab, but should also be utilized for any documents under the Supporting Documents tab. There should not be multiple groups of attachments with the same or similar names; instead, the issuer should grey out old documents and replace them as necessary.

SADP Instructions for companies not submitting new forms/ rates: (for issuers using previously approved forms/ rates)
