Schedule 02 - Computation of Retaliatory Taxes (Foreign Insurers Only)

South Carolina law requires that retaliatory taxes for foreign insurers be calculated by the use of an aggregate approach instead of an item-by-item approach. The aggregate requirements imposed by the foreign state for the privilege of doing business therein, including taxes levied under local

ordinances, are compared with the aggregate requirements imposed in South Carolina for the privilege of doing business here, including taxes levied under local ordinances.

Complete Column A showing all taxes, fees, assessments and obligations due in South Carolina. Complete Column B showing all taxes, fees, assessments and obligations a South Carolina insurer would be required to pay your Domiciliary State under identical conditions. If the foreign state's aggregate total is greater than South Carolina's, the difference is collected from the foreign insurer as a retaliatory tax. If the remainder is negative, there is no retaliatory tax due.

A separate retaliatory worksheet must be uploaded showing home state rates, premium amounts, and calculations. A copy of the home state tax return will satisfy this requirement. This worksheet/tax return is a part of the Required Documentation and if it is not uploaded, the Company may be subject to disciplinary action for failure to follow instructions. A Copy of the SC Fee and Tax Return Schedule 02 – Computation of Retaliatory Taxes – does not satisfy this requirement.
